Probable Benefits accruing to the Republic of the Union of Myanmar by the investment of Sun-Flower Lace Co., Ltd

1. Expansion of Employment Opportunity

Lace and Ladies Garment business is one of the garment industry. To operate such business that we are intending to establish two factories in the Republic of the Union of Myanmar will be started with approximately 527 employees in its first business year in 2012. It is not reflected on the data submitted, but extensive labour forces are likely to be necessary because we will export finished goods to overseas under CMP basis.

Meanwhile, employees will spend their earnings (salary earned), which will contribute to the domestic consumption of Myanmar. Employees' savings will be helpful for the industrial development of the country as well.

2. Growth in Construction Investment/ Wealth of State

We plan to start the construction of two factories upon obtaining the approval from your Commission. Instead of retrieving the investment in a short period of time, we will establish a solid two factories with a long-term purpose of operation (The period of Land Lease is 36 years). We have budgeted approximately total US\$ 3,632,603 for cost of construction of Plot No. D-7 & D-9 of Mingaladon Industrial Park in Mingaladon Township, Yangon, the Republic of the Union of Myanmar.

Initially foreign company will be the owner of the factories, but ultimately it will be owned by the State as it is located in the Mingaladon Industrial Park (MIP), Mingaladon Township, Yangon, the Republic of the Union of Myanmar. Also, a lot of employment opportunities will be created for workers during the construction process in which Department of Human Settlement & Housing Development (DHSHD), a State organization, holds major shares/interests. At the end of the lease period, unless extended, the property shall be transferred to DHSHD in 2048.

3. Direct income generation to the State

Since the project will be located in MIP, Lease Rent and other revenue, charged by MIP (such as, but not limited to, public utility charges namely communication, electricity, water supply etc.) will be accrued to DHSHD (according to its shareholdings in MIP) and hence to the State.

4. Cultivation and nurturing of Young Talent

Myanmar nationals working at the factories will be able to acquire various technical know-how of the Company such as production, management and sales techniques and this will contribute to the personal capability of the workforce of the Republic of the Union of Myanmar in the long-term.

5. Increase of Tax Revenues

As one of foreign investors, we are intending to validly get the benefit of tax exemption and relief granted under the Republic of the Union of Myanmar Foreign Investment Law, from the Government of the Republic of the Union of Myanmar. We are going to be faithful for our legal liability to pay taxes to get such a benefit. From the standpoint of the Government of the Republic of the Union of Myanmar, personal income tax revenue will increase firstly and other tax revenues like income tax on CMP charges at 10% will also be generated.

6. Attainment of 4 Economic Objectives

It is evident from the benefits to be derived by the State from the Project, summarized above, that - "Our Project is committed to co-operate and contribute towards the attainment of 4 economic objectives set by the Government of the Republic of the Union of Myanmar for the development of its National Economy".

Employees' Welfare Plan of Sun-Flower Lace Co., Ltd

Sun-Flower Lace Co., Ltd is 100% foreign company to be established in the Republic of the Union of Myanmar under the Republic of the Union of Myanmar Foreign Investment Law and the Myanmar Companies Act. Its registered office is situated at Plot No. D-7 & D-9 of Mingaladon Industrial Park, Mingaladon Township, Yangon, the Republic of the Union of Myanmar. The Company intends to produce all kinds of Lace and Ladies Garments with 527 numbers of employees. In order that the employees may enjoy proper welfare commensurate with that of a prestigious Company set up a plan, as stated below, for its employees as its employees' welfare plan:

1. Meal

The Company will provide all meal of the day free of charge to the employees who are essential to stay in the factories and the employees who need to work over time.

2. Staff Transportation

For all employees who live far away from the factories, commuter buses will be provided by the Company and the employees will be transported free of charge.

3. Uniform

The Company will provide uniforms free of charge to all employees once a year.

4. Health Care

An infirmary (in accordance with the existing rules and regulations of the Ministry of Health concerned) will be set up in the factories compound and stocked with appropriate/adequate medicines. Qualified physicians/doctors will be engaged by the Company so that in emergency cases employees could be cured free of charge. In addition, a water purifier will be installed in the factory for staff drinking water. Appropriate sanitation facilities will also be installed in the factories and regular disinfection work will be carried out.

5. Risk Prevention

Evacuation plan in case of emergency would be drafted and explained to all employees so that in case of emergency namely: occurrence of earthquake, fire and other natural or manmade disasters, injury or death therefrom could be avoided.

6. Bonus

Annual bonus will be paid to all employees before the Myanmar New Year (Water Festival). The amount of bonus will depend on the performance of the employees.

All the employees benefits mentioned above are some of the usual company policy and practices. Other benefits such as leave (medical leave, annual leave, etc.) would be drawn up and included in the employees' welfare plan according to the Labour Laws of the Republic of the Union of Myanmar. The Company will take extra care to oversee that the benefits provided by the Company do not fall short of those granted under the Labour Laws of the Republic of the Union of Myanmar.

**INDEPENDENT AUDITOR'S REPORT
TO THE SHAREHOLDERS OF SUN-FLOWER LACE (H.K.) COMPANY LIMITED**
(Incorporated in Hong Kong with limited liability)

Report on the Financial Statements

We have audited the financial statements of Sun-Flower Lace (H.K.) Company Limited ("The Company") set out on pages 3 to 9, which comprise the balance sheet as at 31 December 2010, and the income statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Directors' responsibility for the financial statements

The directors are responsible for the preparation of these financial statements in accordance with the Small and Medium-sized Entity Financial Reporting Standard (SME-FRS) issued by the Hong Kong Institute of Certified Public Accountants, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In addition, section 141D of the Companies Ordinance requires that the balance sheet together with the notes thereon should be prepared in accordance with the requirements of the Eleventh Schedule to that Ordinance.

Auditor's responsibility

It is our responsibility to express an opinion on these financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with section 141 of the Hong Kong Companies Ordinance and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing and with reference to PN900 (Clarified) "Audit of Financial Statements Prepared in Accordance with the Small and Medium-sized Entity Financial Reporting Standard" issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and presentation of financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements of the Company for the year ended 31 December 2010 are prepared, in all material respects, in accordance with the SME-FRS. In addition, in our opinion the balance sheet together with the notes thereon is properly drawn up so as to exhibit a true and correct view of the state of the Company's affairs as at 31 December 2010 according to the best of our information and explanations given to us, and as shown by the books of the Company.

Report on other matters under section 141D of the Hong Kong Companies Ordinance

We report that we have obtained all the information and explanations which we have required.

Furniture and fixtures	20%
Office equipment	20%

b. Impairment of assets

An assessment is made at each balance sheet date to determine whether there is any indication of impairment or reversal of previous impairment, including items of plant and equipment. In the event that an asset's carrying amount exceeds its recoverable amount, the carrying amount is reduced to recoverable amount and an impairment loss is recognized in the income statement. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount. However not to amount higher than the carrying amount that would have been determined (net of amortization or depreciation), had no impairment losses been recognized for the asset in prior periods.
